

Internship Vacancy: Climate Tech Analyst at Platform Zero

Company Overview:

Platform Zero is trailblazing the global climate tech ecosystem by developing green projects, investing in startups, housing tech companies at our location in Rotterdam and building a global network of entrepreneurs and partners.

Mission:

We are on a mission to shape a greener planet by amplifying climate tech, specifically in the energy & maritime sectors.

Philosophy:

Championing a grand vision of a sustainable future, we dream big and green. Embracing an inclusive ethos, we prioritise curiosity, respect for our planet, and the community around us. Together, we embark on this transformative journey with excitement and purpose.

Internship Details:

Duration:	Minimum of 4 months
Hours:	16-40 hours per week
Start Date:	July - August
Location:	Subzero, Keileweg 78, Rotterdam
Compensation:	A paid internship with a standard compensation

Roles and Responsibilities:

- Venture Analysis:** Evaluate the potential and trajectory of emerging start-ups in Climate technology.
- Communication:** Craft weekly LinkedIn posts and curate monthly newsletters.
- Campus Activities:** Engage in daily activities and operations on our climate campus.
- Additional Opportunities:** The scope isn't limited to the tasks above. Given our dynamic environment, you may soon find yourself aiding in ventures such as launching start-up challenges globally, pioneering an off-grid energy system in Merwe4haven, or sculpting the hydrogen ecosystem.

Learning Opportunities and Coaching:

- **Deep Dive into Climate Science:** Delve into the intricacies of climate change by interacting with experts, researchers, and green entrepreneurs.
- **Emerging Technologies:** Uncover groundbreaking technologies being harnessed by startups to tackle climate adversities.
- **Business Model Innovation:** Witness the birth of sustainable, scalable business models and understand their journey to market prominence.
- **Networking:** Connect with a tapestry of professionals, academicians, investors, and policymakers united by a singular passion for climate change mitigation.
- **Entrepreneurial Skills:** Experience firsthand the trajectory of startups, from conceptualisation to large-scale implementation, absorbing the essence of entrepreneurial spirit along the way.

You can expect coaching and mentorship on the above-mentioned topics from professionals that have significant experience in entrepreneurship, consultancy, and business development for several large corporates.

If you are passionate about making a tangible difference and align with our philosophy and values, we invite you to join us. Experience the exhilaration of being at the forefront of the climate tech revolution.

Application Process:

To apply, please send your resume and a cover letter detailing your interest in this role, to ruben@platformzero.co

For inquiries, please contact Ruben Rutgers on the email above or don't hesitate to call: +31 6 10592248

Internship Vacancy: Communication at Platform Zero

Company Overview:

Platform Zero is trailblazing the global climate tech ecosystem. Collaborating with startups, scaleups, corporates, universities, schools, investors, governments, and innovation hubs, we're committed to creating monumental change. We drive this change by initiating lighthouse projects, venturing, investing, and unifying these ventures at our climate campus in west Rotterdam.

Mission:

We are on a fervent mission to shape a greener planet by amplifying climate tech, specifically in the energy & maritime sectors.

Philosophy:

Championing a grand vision of a sustainable future, we dream big and green. Embracing an inclusive ethos, we prioritise curiosity, respect for our planet, and the community around us. Together, we embark on this transformative journey with excitement and purpose.

Internship Details:

Duration:	Minimum of 4 months
Hours:	16 - 40 hours per week
Start Date:	July - August
Location:	Subzero, Keileweg 78, Rotterdam
Compensation:	A paid internship with a standard compensation

Roles and Responsibilities:

- 1. Communication Leadership:** Take charge of our digital voice. Create compelling LinkedIn posts that inspire, inform, and engage. Curate impactful newsletters that strengthen connections and spark conversations.
- 2. Content Strategy & Storytelling:** Turn complex ideas into captivating stories. Highlight groundbreaking climate tech, success stories, and bold innovations—making them accessible, inspiring, and shareable.
- 3. Campus Engagement:** Be at the heart of our climate campus. Collaborate, connect, and enhance communication within our thriving community of changemakers.
- 4. Beyond the Desk:** Your impact extends further. Shape narratives for global startup challenges, craft strategies for pioneering energy projects, and drive engagement in Rotterdam's growing hydrogen ecosystem.

Learning Opportunities and Coaching:

- **Climate Science Deep Dive** – Engage with experts, researchers, and entrepreneurs to explore the complexities of climate change.
 - **Emerging Technologies** – Discover cutting-edge solutions startups are using to combat climate challenges.
 - **Business Model Innovation** – See how sustainable business ideas evolve into market-leading solutions.
 - **Networking** – Connect with a diverse community of professionals, investors, and policymakers driving climate action.
 - **Entrepreneurial Skills** – Gain hands-on experience in the startup journey, from idea to impact.
- You can expect coaching and mentorship on the above-mentioned topics

If you are passionate about making a tangible difference and align with our philosophy and values, we invite you to join us. Experience the exhilaration of being at the forefront of the climate tech revolution.
